\$40,000*	\$1.16	information changed	**12¢/ producer	\$1.08							
\$60,000*	\$1.10	PDB rates apply	**12¢/ producer	\$0.94							

* = Guaranteed Amount; Requires signed addendum
 ** = Programming Required

Guaranteed Amount - Guaranteed Amount requires a signed addendum and expires on December 31st. In the event that the guaranteed amount is not attained by December 31st, the amount due will be the difference between the price per transaction and the standard pay-as-you-go amount, i.e. \$1.29/1.53 multiplied by the actual number of transactions processed.

Product Descriptions

Producer Database (PDB)

A comprehensive, national repository of producer information from state insurance departments updated daily with links to information, including: demographics, license history, appointments/terminations, and regulatory actions.

Appointments/Terminations via NIPR Gateway (programming required)

An electronic communications network that links state insurance regulators with insurance entities. It is designed to improve the effectiveness and efficiency of the licensing process through increased coordination, automation, standardization and reciprocity. To submit appointments/terminations directly through the Gateway requires programming on behalf of the company.

FOR INSURANCE CARRIERS ONLY

Interactive Appointments/Terminations

A walk-up application designed for NIPR customers to submit appointments and terminations through NIPR’s front-end application.

FOR INSURANCE CARRIERS ONLY

Company Appointment Report (CAR)

A listing of active Appointments, Terminations or Appointment/Termination History for a specific company in a particular state. (Information can only be accessed by appointing company.)

FOR INSURANCE CARRIERS ONLY

Appointment Renewals

The ability for companies to renew appointments in States through a uniform process. Companies can view and pay the renewal invoice on-line.

FOR INSURANCE CARRIERS ONLY

Company Specialized Report (CSR)

The Specialized Report provides information from 12 data fields contained in the PDB. Requestor can select up to 4 fields per report. Individual entities are supplied by the requestor and the designated fields are populated by data from PDB.

Alerts (programming required for discounted rate)

This product is designed to provide notification to users indicating a change has been made to data stored in the PDB.

Electronic Licensing (Non-Resident or Resident; Initial or Renewal)

Electronic Licensing is the ability for a producer to quickly and easily apply for a non-resident or resident initial license or renewal. Non-Resident licenses are based upon producer's resident state lines of authorities. Using a standardized format, the on-line applications verify the producer's information with the Producer Database, so there is no need for a letter of certification.
